

DIOR

COME MISURARE UN ANELLO CHE GIÀ SI INDOSSA

1. Stampa l'anelliera assicurandoti di aver selezionato la stampa a grandezza naturale, senza adattare le dimensioni alla grandezza della pagina. Per accertarti che la stampa abbia le dimensioni giuste, verifica che la linea di paragone corrisponda alla larghezza di una carta di credito :

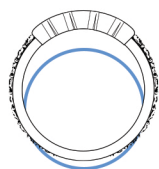

2. Prendi un anello che abbia un bordo regolare e che già indossi sullo stesso dito su cui intendi portare il tuo nuovo anello Dior.

3. Posiziona l'anello sui cerchi blu dell'anelliera finché non ne trovi uno con cui combacia perfettamente. Il numero su questo cerchio corrisponderà alla taglia del tuo anello.

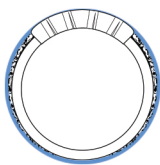

Se hai un'indecisione fra due taglie, ti consigliamo di scegliere quella più grande.
Per gli anelli aperti, ti consigliamo di scegliere una taglia in meno rispetto alla tua.

Per ulteriori consigli, consulta la sezione relativa alle informazioni su taglia e misura presente sulla pagina di ciascun prodotto.

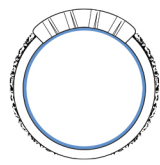

X

L'anello non combacia con il cerchio blu.

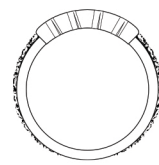

X

Il cerchio blu è più grande dell'anello.

X

I contorni esterni del cerchio blu sono visibili all'interno dell'anello.

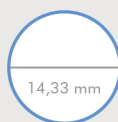

✓

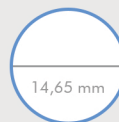

Il cerchio blu è coperto dall'anello.
